Graffiti Remover

Safe Graffiti Remover is a unique, versatile solution which effectively removes not only graffiti and paint but also stickers, glue, gum and other unwanted sticky stuff. Safe Graffiti Remover can be used on a range of surfaces including wood, concrete, vinyl, glass and furniture.

A natural cleaner with a low odour profile, designed to effectively remove stubborn marker pen, paint, and other types of graffiti from tough to clean porous surfaces like concrete or brick walls.

Rubber Remover

An environmentally friendly unique solution designed to safely remove rubber build-up from tyre marks, squash ball marks or other unwanted marking on concrete, asphalt, brick, tiles wood or other surfaces.

Aluminium & Metal Cleaner

A water based metal cleaner that works well to clean and brighten aluminium, stainless steel and alloy surfaces without damaging paint. Suitable for use on aluminum, alloy and stainless steel surfaces, such as truck tanks and bins, stainless steel urinals & benches as well as other metallic surfaces. It also helps clean out pit holes on welds, or nuts and bolts.

Bitumen Remover

A recently developed water & plant-based solution, highly effective at cleaning bitumen, emulsion and other tar-based products from most surfaces. This new formula is non-flammable, non-dangerous and user friendly. Always rinse clean with water.

Paint Remover

Paint remove is a biodegradable, low odour gel paint remover for wood, metal and concrete. Removes multiple layers of paint, sealants and adhesives — without caustic fumes.

Concrete Remover

Concrete remover easily removes concrete from most surfaces, including vehicles, sidings, decks, aluminum window frames, foundations, equipment, tools, plastic, paintwork and even your gumboots.

Calcium Remover

Calcium remover is a non-Dangerous Goods solution to assist in the effective removal of calcium or limescale build-up from hydroslides, pools and other equipment.
